

## Quality of Life

At Medicalodges Leavenworth, quality of life is as important as quality of care. We are dedicated to providing an environment that focuses on resident choice and dignity. Our person-centered approach includes open dining hours, daily choices in meal selection, seven-day activities programming including a variety of religious opportunities, a licensed massage therapist, and a restraint and alarm-free environment.

To help meet the needs of our community, we provide adult day care services, and we also contract with a number of local and area hospice providers to provide the best quality services available in respite and end-of-life care when needed.

## ☞ Welcome to Medicalodges Leavenworth

Thank you for taking a moment to learn what Medicalodges Leavenworth has to offer. We are a skilled nursing center serving the rehabilitation, respite, adult day care, and long-term care needs of our community. Our company was founded in 1961 by Mr. S.A. Hann in Coffeyville, Kansas, and our home office is still located there today. As a progressive provider of healthcare, Medicalodges, Inc. has over thirty health care operations in three Midwestern states and employs over 2000 people. Providing health care at various levels of need is the sole business of Medicalodges, Inc.

## ☞ Employee Ownership

In February 1998, one of the most significant events in the history of Medicalodges, Inc. took place. An agreement was reached by which the employees of Medicalodges bought the company and thus ensured the future of the company would be determined by the thousands of employees who make Medicalodges what it is today. Medicalodges was the first health care company in the United States to be 100% employee-owned and remains one of the largest employee-owned companies of any industry in the country.

Each and every one of the thousands of persons who entrust their health care needs to Medicalodges every year does so with employees who are also owners of the company. Thus, each employee has a deeply personal, vested interest in providing the highest level of quality care. As an employee-owned company, any profits that are made are put back into the company, its care centers, resident care, and to retirement funds.
